

1. LP

Question 1

How to Attempt?

IsEven?

Write a function to find whether the given input number is Even.

If the given number is even, the function should return 2 else it should return 1.

Note: The number passed to the function can either be negative, positive or zero.
Zero should be treated as Even.

JAVA6

Compiler: Java - 1.6

```
1 import java.io.*;
2 import java.util.*;
3
4 // Read only region start
5 class UserMainCode
6 {
7
8     public int isEven(int input1){
9         // Read only region end
10         if(input1%2==0)
11             return 2;
12         else
13             return 1;
14     }
15 }
```
